1.0 Introduction

1.1. *General Information*

The facility is located at 1551 Caterpillar Road, Mississauga, Ontario. The facility was required to report three TRA Phase I substances: toluene (CAS# - 108-88-3), xylene (CAS# - 1330-20-7) and methanol (CAS# - 67-56-1). These substances are contained within the solvents, paints and varnishes used to finish the cabinetry pieces. The facility is also required to report eight TRA Phase II substances: acetone (CAS# - 67-64-1), ethanol (CAS# - 64-17-5), isopropyl alcohol (CAS# - 67-63-0), methyl ethyl ketone (CAS# - 78-93-3), n-butyl acetate (CAS# - 123-86-4), ethyl acetate (CAS# - 141-78-6) (all contained within the solvents, paints and varnishes used to finish the cabinetry pieces), particulate matter smaller than 2.5 microns (CAS# - NA-M10) and particulate matter smaller than 10 microns (CAS# - NA-M09) (emitted from wood cutting and sanding operations).

This plan summary is for both Particulate Matter <= 10 Microns (CAS #: NA-M09) and Particulate Matter <= 2.5 Microns (CAS #: NA-M10). The Facility manufactures cabinetry for use in kitchens and bathrooms. Particulate matter (PM) is created on-site during wood sanding and cutting operations.

Table 1: General Facility Information

NPRI Number	247
O Reg 127/01 Number	11162
Number of full time employee equivalents	300
NAICS Code (2 digit)	31-33 – Manufacturing
NAICS Code (4 digit)	3371 – Household and institutional furniture and kitchen cabinet manufacturing
NAICS Code (6 digit)	337110 – Wood kitchen cabinet and counter top manufacturing
UTM Coordinates	17 T 614956 m E 4828988 m N
Company Legal Name	Aya Kitchens & Baths Ltd.
Company Trade Name	Aya Kitchens & Baths Ltd.

1.2. Plan Contacts

A list of the individuals involved in the planning process is provided below:

2.0 Facility's Intent, Objectives and Targets

2.1. Use

The act requires that a facility include a statement of intent to reduce the use of the prescribed toxic substance. If the facility does not provide a statement of intent it must provide a reason why it does not intend or why it is not possible to reduce the use of the toxic substance. In addition to this, the facility is required to provide a list of objectives.

Statement of intent:

The facility does not have a statement of intent.

Reason why the facility does not have a statement of intent: (if applicable)

The facility does not use the subject substances at the facility; therefore it is not required to provide a statement of intent on the use of these substances.

Objectives: (a list of objectives to reduce if any)

N/A

Quantity Target: (if any)

N/A

Target Timeline: (if any can be expressed in years or described in text box, or no timeline can be selected)

No timeline.

Reason why toxic substance is used at the facility: (from drop down menu options)

N/A

2.2. *Creation*

The act requires that a facility include a statement of intent to reduce the creation of the prescribed toxic substance. If the facility does not provide a statement of intent it must provide a reason why it does not intend or why it is not possible to reduce the creation of the toxic substance.

Statement of intent:

The facility does not have a statement of intent. However, Aya does intend to continue to monitor current research on reducing PM emissions.

Reason why the facility does not have a statement of intent:

Aya does not intend to reduce the creation of PM because (i) there are no reduction options possible, and, (ii) they are in the business of manufacturing wood cabinets, and PM is a by-product of the wood cutting and sanding operations.

Objectives:

Although Aya does not intend to further reduce the creation of PM, they will continue to conduct further research to identify new reduction options and to keep up with industry standards with regards to PM pollution prevention.

Quantity Target:

No target.

Target Timeline: (if any can be expressed in years or described in text box, or no timeline can be selected)

No timeline.

Reason why toxic substance is created at the facility:

As a by-product.

3.0 Facility's Goals

There are no reasonable substitutions for these substances and many of the reduction options possible have already been implemented in the past.

4.0 Facility TRA Plan (info)

This plan summary is accurate, up to date and reflects the current facility version of the Toxic Reduction Plan.

5.0 Signed Certification Statements

AirZOne

Certification by highest ranking employee

As of July 31st, 2014, I, Dave Marcus, certify that I have read the toxic substance reduction plan for the toxic substance referred to below and am familiar with its contents, and to my knowledge the plan is factually accurate and the plan complies with the *Toxics Reduction Act, 2009* and Ontario Regulation 455/09 (General) made under that Act, with the exception of the regulatory deadline. The December 31st deadline has not been met due to the need to re-assess previous TRA accounting submissions.

Particulate Matter <= 10 Microns

Particulate Matter <= 2.5 Microns

Signed:

Dave Marcus

Certification by toxic substance reduction planner

As of July 31st, 2014, I, Franco DiGiovanni, certify that I am familiar with the processes at Aya Kitchens & Baths Ltd. that use or create the toxic substance referred to below, that I agree with the estimates referred to in subparagraphs 7 iii, iv and v of subsection 4 (1) of the *Toxics Reduction Act, 2009* that are set out in the plan dated July 31st, 2014 and that the plan complies with that Act and Ontario Regulation 455/09 (General) made under that Act, with the exception of the regulatory deadline.

Particulate Matter <= 10 Microns

Particulate Matter <= 2.5 Microns
